### **Deerfield Named as One of the Cleanest Cities in America**

The Village of Deerfield, IL has been listed as the No. 8 cleanest city in America- and the cleanest in Illinois- by an Expedia independent study. Thousands of user reviews from across the U.S. were analyzed to determine the highest cleanliness ratings. With a 4.61/5 average rating, Deerfield was recognized for its focus on green efforts and encouraging sustainability practices. These real-life opinions, in conjunction with Deerfield's environmental initiatives, restaurants and shopping, and 6 hotels with proximity to major highways and O'Hare Airport, make Deerfield a premier business and travel destination.

According to the report, "[Deerfield] has its own resident-led Sustainability Commission, committed to engaging with the community about environmental issues." The Sustainability Commission's vision is that Deerfield optimizes its potential in environmentally sound practices, thereby improving the quality of our local environment for the benefit of our citizens, businesses and neighbors.
