

# Battling Buckthorn

Learn how to **identify** buckthorn, **remove** it and **replace** it in your yard!

**Saturday, June 15**  
**10 a.m. @ Deerfield Public Library**

Buckthorn has harmful effects on surrounding trees, wildlife and native landscapes. Learn from an expert why these invasive woody plants need to be removed and how to establish a plan for eradication. Our presenter, Matt Ueltzen, Restoration Ecologist, LCFPD, has more than 20 years' experience conserving habitats in the region.

Note: This is the first program of a 3-part tree education series. Please save the dates of Sept. 21 for an educational tree walk and Oct. 12 for a hands-on tree planting activity. For more information about this program or other upcoming events call 847.719.7404 or visit [deerfield.il.us/green](http://deerfield.il.us/green).

Sponsored by the  
Village of Deerfield's  
Sustainability  
Commission, the  
Deerfield Public  
Library and  
Lake County Forest  
Preserves.
