

October 21, 2019

The regular meeting of the Board of Trustees of the Village of Deerfield was called to order by Mayor Harriet Rosenthal in the Council Chambers of the Village Hall on October 21, 2019, at 7:30 p.m. The clerk called the roll and announced that the following were:

Present: Harriet Rosenthal, Mayor  
Robert Benton  
Tom Jester  
Mary Oppenheim  
William Seiden  
Dan Shapiro  
Barbara Struthers

and that a quorum was present and in attendance. Also present were Village Manager Kent Street and Steven Elrod, Village Attorney.

PLEDGE OF ALLEGIANCE

Noa Friedland and Rachel Nieder from DHS School Chest led those in attendance in reciting the Pledge

of Allegiance.

School Chest has raised more than \$1 million for charity. This year's charity is Saving Tiny Hearts, a charity for congenital heart disease for children. The events, which can be found at schoolchest.org, will take place between November 5 and November 26.

PROCLAMATION

Mayor Rosenthal read a Proclamation for Domestic Violence Awareness. She proclaimed October as

Domestic Violence Awareness Month in the Village of Deerfield and urged residents to wear purple and work together to eliminate domestic violence

Trustee Oppenheim moved to accept the Proclamation. Trustee Benton seconded the motion. The motion passed unanimously on a voice vote.

Mayor Rosenthal presented the Proclamation to Susan Shulman from North Suburban Legal Aid Clinic, which provides pro bono legal aid. They have no income requirements for survivors of domestic violence. They have been assisting more people. Last year they helped 84 survivors; this year they have assisted more than 185.

VOLUNTEER ENGAGEMENT  
COMMISSION APPOINTMENT

Trustee Seiden moved to approve the Volunteer Engagement Commission's appointment recommendations of Kevin Whitney to the

Volunteer Engagement Commission, Amy Charlson to the Fine Arts Commission and Lauren Rothenberg as an ex-officio member of the Board of Police Commissioners. Trustee Shapiro seconded the motion. The motion passed unanimously on a voice vote.

DOCUMENT APPROVAL

Trustee Oppenheim moved to approve the minutes from the October 7, 2019, Board of Trustees meeting and the October 2, 2019, Committee of the Whole meeting. Trustee Struthers seconded the motion. The motion passed unanimously on a voice vote.

BILLS AND PAYROLL

Trustee Struthers moved to approve the Bills and Payroll dated October 21, 2019. Trustee Oppenheim seconded the motion. The motion passed by the following vote:

AYES: Benton, Jester, Oppenheim, Seiden, Shapiro, Struthers (6)

NAYS: None (0)

PUBLIC COMMENT

There were no Public Comments on non-agenda items.

REPORTS

REPORT AND RECOMMENDATION OF THE PUBLIC WORKS AND ENGINEERING DEPARTMENT RE: NO PARKING RESTRICTIONS Assistant to the Director of Public Works and Engineering Justin Keenan stated the Public Works department plows after 2 inches of snow has fallen.

He noted that the Village requests that residents not park on streets after 2 inches have fallen, but the Municipal Code bans parking after 3 inches. For the safety of residents and plow drivers, the Department requests that residents do not park on Village streets during plowing operations. As part of the review process, staff completed a survey of neighboring communities and found Deerfield was the only Municipality that barred parking after 3 inches of snow. He noted staff would like to change the threshold to two inches in the Municipal Code.

Trustee Seiden moved to accept the report and recommendation of the Public Works and Engineering Department regarding parking restrictions. Trustee Oppenheim seconded the motion. The motion passed by the following vote:

AYES: Benton, Jester, Oppenheim, Seiden, Shapiro, Struthers (6)

NAYS: None (0)

REPORT AND RECOMMENDATION OF THE PUBLIC WORKS AND ENGINEERING DEPARTMENT RE: FATS, OILS AND GREASE PROGRAM

Mr. Keenan reported all food service businesses that prepare food in-house are required to have a grease receiving system (GRS) installed to prevent grease from entering the sanitary sewer system. The Village adopted an Ordinance in 2013 that requires business to clean the GRS on an annual basis. In 2015, Lake County adopted an Ordinance that includes a comprehensive fats, oils and grease (FOG) section. Staff recommends

the Village adopt the Lake County Ordinance, as it will give staff the authority to enforce a minimum size requirement and will prevent future sewer backups and keep the system in better working condition. Staff also recommends the creation of a FOG permit that will be valid for 5 years.

Trustee Oppenheim moved to accept the report and recommendation of the Public Works and Engineering Department regarding a FOG program. Trustee Benton seconded the motion. The motion passed by the following vote:

AYES: Benton, Jester, Oppenheim, Seiden, Shapiro, Struthers (6)

NAYS: None (0)

### CONSENT AGENDA

ORDINANCE O-19-29 AMENDING THE MUNICIPAL CODE OF THE VILLAGE OF DEERFIELD TO INCREASE THE PENALTY FOR WORKING WITHOUT A PERMIT – 2R An Ordinance amending the Municipal Code of the Village of Deerfield to increase the penalty for working without a permit. Second Reading.

ORDINANCE DISSOLVING THE SISTER CITY COMMISSION – 1R An Ordinance dissolving the Sister City Commission. First Reading.

ORDINANCE AMENDING SECTIONS 2-156 AND 2-158 OF THE MUNICIPAL CODE TO ELIMINATE THE SAFETY COMMISSION – 1R An Ordinance amending Sections 2-156 and 2-158 of the Municipal Code to eliminate the Safety Commission. First Reading.

Trustee Oppenheim moved for First Reading of the Ordinances and adoption of the Ordinance amending the Municipal Code of the Village of Deerfield to increase the penalty for working without a permit. Trustee Seiden seconded the motion. The motion passed by the following vote:

AYES: Benton, Jester, Oppenheim, Seiden, Shapiro, Struthers (6)

NAYS: None (0)

### OLD BUSINESS

ORDINANCE AUTHORIZING A CLASS A SPECIAL USE FOR A WELLNESS CENTER IN UNIT M (FORMER CALIENTO PHOTOGRAPHY SPACE) IN DEERFIELD SQUARE AT 720 WAUKEGAN ROAD (KIRBY LIMITED An Ordinance authorizing a Class A Special Use for a wellness center in Unit M (former Caliento Photography space) in Deerfield Square, located at 720 Waukegan Road (Kirby Limited Partnership & Restore LLC). First Reading.

PARTNERSHIP & RESTORE LLC) – 1R Mayor Rosenthal indicated the petitioner requested a waiver of the First Reading. Trustee Struthers was not in favor of the waiver. Trustee Struthers had a number of questions about the intravenous treatments and who can get them and how the blood is handled. Chris Siavellis, representing Deerfield Square, stated he would ensure the proposed tenant was available for the Second Reading of the Ordinance. He noted they are licensed in the State of Illinois. Mayor Rosenthal noted this would stand as a First Reading of the Ordinance.

ORDINANCE AUTHORIZING TEXT  
AMENDMENTS TO THE DEERFIELD  
ZONING ORDINANCE REGARDING  
ZONING REGULATIONS FOR  
RECREATIONAL CANNABIS  
BUSINESSES, INCLUDING  
DISPENSARIES – 1R

Mayor Rosenthal noted there were a few items that came up at the last Board of Trustees meeting. First was criticism of what the Plan Commission did. Mayor Rosenthal noted the Plan Commission is a recommending body. Their charge is to recommend or not recommend Zoning. The criticism that was brought to them was unfounded. Second, the Board of Trustees will not be voting on this Ordinance tonight. There was an approval of the Report and Recommendation of the Plan Commission which will be followed by a First Reading of the Ordinance tonight and a Second Reading of the Ordinance on November 4.

The third criticism was that the Board comes to these meetings with their minds made up. The Trustees study every item that comes before the Board. They listen to what the other Trustees say as well as the visitors that speak. The Trustees may or may not change their minds based on what is presented and discussed. The Board is responsible for representing the entire Village, not just those that attend meetings. When someone is against something, they are more likely to attend a meeting. Some of the recent decisions made by the Board include the assault weapon ban, the Zion Woods affordable housing and the downtown redevelopment. The Board listened to but did not agree with those opposing these issues. It is difficult to disagree with a room full of people, but it is the Board's job to represent entire Village and weigh the pros and cons. She asked for everyone to speak with respect.

Mr. Street reported at the October 7, 2019, Board of Trustees meeting, the Board accepted the report and recommendation of the Plan Commission. Consistent with Plan Commission's report, the Ordinance amends the Zoning Ordinance to: allow recreational dispensaries in the C-2 Outlying Commercial District and I-2 Limited Industrial District as a special use pursuant to strict regulations; continue to prohibit all cannabis businesses in the Village other than recreational dispensaries and medical cannabis dispensaries; and continue to prohibit all on-premises consumption in the Village. In addition to the Plan Commission's report, the Mayor and Village Staff prepared an addendum. The changes include:

- The Dispensary shall be required to check the government issued identification of every customer purchasing cannabis; if a dispensary agent or employee believes or has reason to believe that a sale of recreational cannabis is prohibited because of nonage of the prospective recipient, he shall, before making such sale demand presentation of some form of positive identification, containing proof of age, issued by a federal, state or

county, or municipal government or subdivision or agency thereof, including but not limited to, a motor vehicle operator's license, a registration certificate issued under the federal selective service act, or an identification card issued to a member of the armed forces. In addition, the employee may request a second form of positive identification which confirms the authenticity of the first. For the purposes of preventing the violation of this Special Use approval, any dispensary agent or employee, may refuse to sell recreational cannabis to any person who is unable to produce adequate written evidence of age and identity.

- A Special Use Permit for a dispensary for recreational cannabis shall prohibit sales or offer for sale any cannabis or related products between the hours of 8:00 P.M. and 8:00 A.M. on each day of the week. Further, a dispensary for recreational cannabis shall not be open for business or admit the public to enter the premises during the hours within which the sale of such recreational cannabis is prohibited.

The following was added:

- Delay the effective date of the ordinance to allow review of expected State administrative rules. Replace existing Section 8 of the draft Ordinance with the following: This Ordinance will be in full force and effect from and after the occurrence of both of the following: A. Its passage and approval in the manner provided by law; and B. The date that is 60 days after date on which the Illinois Department of Financial and Professional Regulation adopts administrative rules pursuant to and in furtherance of the Cannabis Regulation and Tax Act ("IDFPR Rules"); provided that: (i) within such 60 day period the Board of Trustees shall have the right but not the obligation, in its sole and absolute discretion, to declare this Ordinance null and void and of no force or effect, which declaration may be made by a resolution duly adopted by the Board of Trustees without any further process or action; or (ii) in the event that the IDFPR Rules are not adopted prior to July 1, 2020, the Board of Trustees shall have the right but not the obligation, in its sole and absolute discretion, to declare this Ordinance null and void and of no force or effect, at any time prior to August 1, 2020 by a resolution duly adopted by the Board of Trustees without any further process or action. In the event that such declaration is not made prior to August 1, 2020, this Ordinance will be in full force and effect from and after August 1, 2020.

Mr. Elrod noted there is a deadline of July 1, 2020

Mayor Rosenthal noted there has been some misunderstanding on where a dispensary would be allowed, according to the Village Ordinance and noted that the area around Tony's Subs is prohibited.

Trustee Oppenheim clarified the change in the identification requirements. Originally, two forms of identification were required. Now, it is up to the clerk who is allowed to ask for a second form of identification. Mr. Street noted this is similar to the liquor code. Trustee Jester does not like having prospective applicants reimburse the Village for costs, as this is not done with any other

special use. Trustee Oppenheim noted this was discussed, but has not been implemented with other businesses. Trustee Shapiro believes this is different. He does not have an issue with how it is drafted, as it provides additional control. The potential Ordinance is more restrictive than the State level. Trustee Shapiro noted this is something the Village could chose to do. Mayor Rosenthal noted medical marijuana will have a lower price than recreational.

Margaret Anderson is a 40-year resident of Deerfield. The recreational marijuana issue is close to her heart. Her nephew told her marijuana was his gateway drug. The concept of keeping this away from schools, parks and daycares is good, but does not represent the interest of the constituents. She questioned whether the Trustees are protecting Deerfield homeowners, residents and children. Ms. Anderson noted the Trustees are tasked to hold this type of business to a harder line. She believes any distance is too close to the homeowners. There are a lot of activities in Deerfield. This will be bad for the reputation of Deerfield. She asked the Trustees to think long and hard about passing this Ordinance. There are no benefits.

Kim Roll-Wallace is a 25-year Deerfield resident. She spoke with some residents that were not aware of the issue. She noted there is a lot of information available to residents, but not about this issue. If you want to know how people feel, there needs to be a referendum. Ms. Roll-Wallace noted the tax is for new expenses caused by allowing cannabis. She does not see the financial benefits. She asked the Trustees to show residents the financial benefits, if there are any.

Beth Bagg, a 48-year resident of Deerfield, discussed the risk to public safety. The word on the street is that medical marijuana is being purchased and distributed to minors. She cited a recent theft at the medical marijuana dispensary in Deerfield.

Matt Dawson, a DHS student, reported students are the future. The decision to bring a recreational marijuana store to Deerfield begs the question of whether the Trustees want the money or the students. You expect students to turn away from drugs, including marijuana, but are putting more marijuana in Deerfield. College students will sell it to minors or minors will get it from their parents. You are putting money over our principles. Please set the right example for us.

Harold Dawson, a Deerfield resident, has not seen a lot of detail about the financials. He noted that \$10 million in sales will drive \$500,000 in revenue for the Village. There will be some things that come with this cost. This is an all cash business. Aside from traffic, the Village will only net \$200,000 - \$250,000. That is just a little per home in the Village. The traffic of \$10 million drives 66,000 transactions or 300-400 transactions per day. The average Starbucks sells 500 cups of coffee per day. Mr. Dawson urged the Trustees to do their research and share it with Village residents so everyone knows the revenue expectations.

Dr. Jerry Leikin is a medical toxicologist. He provided medicinal data. There are 200 hospitals in the State with four on the north shore, which account for the largest number of cases in the Country. There is no quality control in the dispensaries. They do not know what they are selling.

There is no pesticide analysis. You are letting an institution come in without control. There is no analysis of the substances.

Dr. Robert Barkin, a 50-year resident and a professor at Rush Medical College and pharmacologist, noted that cannabis use is tied to psychotic experiences. Regular marijuana use changes patient needs. It is more potent than in the past. He cited a number of academic studies. Dr. Barkin is a 50 year resident of Deerfield.

Peter Kearney, a 25-year resident, did not know about this until two days ago. He questioned whether there was any detailed analysis about the medical conditions caused by medical marijuana. He is a 25 year resident. Mr. Elrod noted the Village is considering a comprehensive Zoning amendment and are not making any decisions on a dispensary. The Trustees are volunteers and have outside professions. Mr. Kearney believes the community does not know about this. There is no revenue problem in the community; but you have a spending problem. He questioned whether this is based on financial impact. Property taxes in the Village have more than doubled while home values are stagnant at best. Mr. Kearney believes the value of the properties will go down if this passes.

Pat Anderson expressed concern about Illinois State law, the use of recreational marijuana by adults and the ability to have dispensary. The State has made marijuana a reality, but local jurisdictions have control over the sale of marijuana in their communities. He added that State Representative Bob Morgan also stated the issue is a local issue. He believes there has been an increase in local crimes and disagrees with Representative Morgan saying there has been no increase in high school students use of marijuana.

Chris Lappe was in law enforcement for 30 years, including narcotics. One common denominator is that marijuana leads to harder drug use, thefts, homicides, etc. Marijuana is not as innocent as it appears to be.

Peter Greenfield is a 16-year resident. He is involved with Deerfield youth and thinks this is a bad decision for our youth. He questioned whether the dispensaries would be inspected, and whether the rules for inspection would be as stringent as FDA rules. In Oregon, only 3percent of retail dispensaries have been inspected. They failed to meet the basic standards. No one can answer the potency question as those standards have not been established. The FDA regulates food, medicine, water and assists regulatory agencies with training, tech assistance, etc. They do not regulate marijuana as it is illegal at the Federal level.

Dr. Adam Rubenstein specializes in internal and addiction medicine. He has faith in the Trustees that they will be open minded and have attention to detail. He is actively involved and sees people suffering. All of the patients that are addicted to opiates or oxycodone have smoked marijuana or drank alcohol by age 12. There is a need to decrease the chance of first contact. Dr. Rubenstein urged the Trustees to vote with what is right and protect the kids in Deerfield.

George Ybarra, a 3-year resident, chose Deerfield because it is a great community with great schools. He lived in Denver before Colorado allowed marijuana. Before it was nice; now, there

is a lot of riffraff. This is not the way we want Deerfield. He urged the Trustees not to allow a dispensary in Deerfield. It is a choice. Make the right choice. He believes things will happen and does not want people under the influence in Deerfield.

Chris Goodsnyder is a 21-year resident. He asked that the decision is guided by four principals. Don't be hypocritical – how can we promote anti-drug programs and allow a dispensary here? Be pragmatic – you would not banish it to the hidden confines of Kates Road. Zoning restrictions are nonsensical. This is a message that is not consistent. Don't follow out of site out of mind. Be consistent – there are no restrictions on storage of marijuana once purchased. If there are children in the home, it should be stored under lock and key. Be honorable – do not compromise ethics for dollars.

Gary Cooper noted everything has been said and he opposes allowing a dispensary.

Michelle Culver strongly opposes the Ordinance. Two weeks ago, several residents shared their opinions and doctors shared facts. Many Trustees stated it is here now. The State has legalized it, allows municipalities to opt out. The Village took a stand on assault weapons. Take a stand on recreational marijuana and opt out.

Patrick Moorehead is a 47-year resident of Deerfield. Deerfield is a family-friendly community. The emphasis has always been on family. Recent changes in Illinois law changed the playing field. Revenue starved Illinois has approved recreational use of cannabis but that does not mean Deerfield has to approve it. Before voting, consult ER physicians in Colorado and other areas where recreational marijuana has been approved. Look at other suburbs that are saying no and consider the impact. It is difficult for young people and parents to discuss drug use.

Trevor Vernier, 667 Carriage Way, does not believe a recreational marijuana dispensary has a place in Deerfield. He does not believe Deerfield should be a frontrunner in this case. The Village needs to understand the complications that may arise. Deerfield's reputation could change. Your vote is an important piece of this project. The Village needs to analyze the long term implications and we need to learn from mistakes.

Heather Ruffolo is a 40-year resident. She agrees with what the others have said. She did some research. She noted that legalization signals marijuana is not dangerous and encourages teen use. Regulating THC and raising taxes does not work as it increases the black market marijuana, which is not taxed. Ms. Ruffolo believes we need to discourage young people from using marijuana. Twenty years ago, the country moved to encourage lighter usage of marijuana and opiates. We were wrong. Opiates are far riskier and cause more overdose deaths. Mental illness, psychosis and violence are caused by marijuana use. Ms. Ruffolo asked the Village to be proactive in educating children now by saying no. Educate them on the harmful effects of marijuana that can cause addiction. The Village needs to set good example for young people.

Hazel Herzog is a 51-year resident of Deerfield. Forty years ago, a group of citizens started a group to teach students about the dangers of drugs and alcohol. She hopes the Trustees will rethink this.

Lydia St John opted not to speak more on the topic at this time.

Neil Burmeister is involved with youth. One thing that struck him is when the Mayor stated when people are against things, they come out in droves. He understands the Board is not voting tonight and are looking at an Ordinance to change the Zoning laws. Just because you can do something does not believe you should do something. You can choose to allow a recreational cannabis dispensary in Deerfield, but it does not mean you should do it.

Craig Katz noted statistics can be viewed any way to get the result you want. He cited recent studies that have data showing decreased youth use following recreational cannabis use approval. The Village needs to look at all of the issues from all sides; there is more than just one side.

Cindy Aronson likes what Trustee Seiden said last time. He asked questions and did a cost analysis. She agrees that it may be good to poll the residents to get a pulse of the community. Some residents stated they did not know about this until two days ago. The Village needs more communication. This is not legislating morality; rather it is a public health issue.

Elizabeth Adamczyk is a pharmacist and 28-year resident. She picked Deerfield for its reputation. In Vancouver, two years ago, she noticed a recreational dispensary. Nearby, a medical dispensary had a lounge to hang around. There was not supposed to be smoking outside, but there was always a smell. In a San Francisco public park, people were laying around and were high. Ms. Adamczyk asked the Trustees to think. The first step is a dispensary. The second step is a lounge and the third step is people high in a public park. Recreational marijuana comes in many forms including brownies and cookies. It will change the perception of children.

Ying is a Deerfield resident. Some marijuana looks like candy, but it is laced with THC. There are many incidents where students eat this candy and end up in hospital. Last year, 19 students in San Francisco were sent to a hospital because of laced candy. Alcohol labels have a warning. Marijuana products come in many forms. They are very dangerous. Children five and younger are poisoned by edible marijuana. Please think twice.

Trustee Shapiro noted the Trustees do not come to meetings with predetermined decisions. They go through a process to make appropriate considerations. The Trustees are considering and hearing what has been said. This is not a money issue for him. Please understand comments from the residents resonate with the Trustees. It is ok to disagree and be different, but do not be disagreeable.

Trustee Seiden has made up his mind. He believes that if any Trustee changes their mind, it is because residents came out with forceful words. Thank you for coming out.

Trustee Oppenheim noted one resident discussed inspections and quality control. The Trustees are waiting for a report from the State that discusses how these facilities will be inspected and what the quality control will be as well as the potency. They added to the Ordinance that the Village is waiting to get these results. Mr. Elrod noted the State has preempted regulations.

Trustee Oppenheim noted the Village is insisting on quality control and will not allow a lounge for smoking cannabis. The Trustees are hearing the concerns. Many of the same concerns were raised by the Trustees as well.

Trustee Struthers noted this is an unregulated plant. The FDA regulates drugs and foods and this does not qualify. Researchers have not been able to research cannabis because it is illegal. The Trustees have a difficult decision. Trustee Struthers noted kids are getting it now.

This will stand as a First Reading of the Ordinance.

### NEW BUSINESS

AUTHORIZATION TO EXECUTE  
AGREEMENT WITH DISTRICT 109  
REGARDING A SCHOOL RESOURCE  
OFFICER

Chief Sliozis would like to execute an agreement with School District 109 for a School Resource Officer. They are in negotiations and hope to move forward in January 2020. The proposed terms are similar to the high school. The school district will pay 75 percent of the salary and benefits. The officer will be assigned for nine months. The program at Deerfield High School has been very successful. Chief Sliozis is still working out the rotation details and it will be finalized more next year.

Trustee Seiden questioned whether Riverwoods should participate as well. Chief Sliozis noted they are already supporting the schools and would be a relatively small number.

Trustee Struthers moved to execute the agreement with District 109 regarding a school resource officer. Trustee Oppenheim seconded the motion. The motion passed by the following vote:

AYES: Benton, Jester, Oppenheim, Seiden, Shapiro, Struthers (6)  
NAYS: None (0)

ORDINANCE O-19-30 INCREASING  
THE NUMBER OF AUTHORIZED  
PATROL OFFICERS

Chief Sliozis reported the Department needs to add one additional patrol officer due to the previous agreement.

The new officer will not be assigned to District 109. They will get a more experienced officer.

Trustee Oppenheim moved to waive the First Reading of the Ordinance. Trustee Struthers seconded the motion. The motion passed by the following vote:

AYES: Benton, Jester, Oppenheim, Seiden, Shapiro, Struthers (6)  
NAYS: None (0)

Trustee Seiden moved for Second Reading and adoption of the Ordinance. Trustee Benton seconded the motion. The motion passed by the following vote:

AYES: Benton, Jester, Oppenheim, Seiden, Shapiro, Struthers (6)

NAYS: None (0)

### DISCUSSION

DANGERS OF OIL CARS ON TRAINS Trustee Struthers heard three speakers discuss the dangers of oil cars on trains at a recent forum. She explained Canada has gone to one person per train, resulting in a tired engineer setting the air brakes instead of using the electric brakes. This resulted in a destroyed town with 47 casualties. Trustee Struthers noted most of the regulators are former executives of railroad companies. The people who organized the forum are fighting to keep both an engineer and a conductor on each train. The third speaker was a former fire chief from Oregon. There was a derailment in his town and they successfully kept the trains from catching on fire and burning down the town. There was a lot of track repair. There are derailments and coal and oil are in our towns and we need to ensure safety. Mayor Rosenthal noted the Federal government is looking at going to one person per train and suggested asking our Federal representatives.

### MAGELLAN HOUSTON

Mayor Rosenthal attended an event at Magellan Corporation where Billie Jean King spoke.

### FAMILY NIGHT

Mayor Rosenthal attended the South Park School Family Night and read books to the students.

### PENSION CONSOLIDATION

Mayor Rosenthal reported pension consolidation is Under consideration in Illinois. The Task Force prepared a report. She is waiting to see what will happen. It could save municipalities a lot of money.

### FARMER'S MARKET

St. Gregory's Church will host a Farmers Market every other Saturday starting October 16 thru April 18. The Village is helping to promote it. There will be between 7 and 14 vendors, including Farmer Nick, the meet vendor.

### FALL LEAF COLLECTION

Mr. Street reported fall leaf collection started this week.

### ADJOURNMENT

There being no further business or discussion, Trustee Oppenheim moved to adjourn the meeting. Trustee Benton seconded the motion. The motion passed unanimously on a voice vote. The meeting was adjourned at 9:40 p.m.

Board of Trustees Meeting  
October 21, 2019  
Page 12 of 12

The next regular Board of Trustees meeting will take place on Monday, November 4, 2019, at 7:30 p.m.
