For Immediate Release  
Village Manager's Office

### **July 11 Storm Update 6**

At this time, the Village of Deerfield still has approximately 40 customers without power resulting from Monday's storm. ComEd has indicated that 99% of their customers will have power as of midnight tonight. Unfortunately, restorations for Deerfield's remaining customers are estimated for Saturday. Village officials will continue to actively pursue restoration efforts with ComEd until all customers are restored.

Residents that do not have power should continue to contact ComEd and let them know that power has not yet been restored (1-800-EDISON-1 or 1-800-334-7661). ComEd is not always aware that an individual location does not have power.

Due to the amount of debris that is making contact with power lines, some residents and businesses whose power was restored or was never out may experience short outages over the next several days. In order to safely repair the lines, ComEd will need to take down live power, remove the debris, and bring the power back up.

The Village will continue to update the website and issue press releases as information becomes available.
